Good lord. @GaSecofState Brad Raffensberger must be REALLY desperate at this point to save his crappy, failed, 100% unverifiable BMD touchscreen systems if he's opening a state probe into election integrity champs @MarilynRMarks1 & @rad_atl! Seriously?!

This is the first time a federal court has actually struck down an entire state's voting system because they are violating the fundamental right to vote.

I'd love it if more of us called out Chief Justice John Roberts every time any kind & every kind of vote tampering is reported. He killed the VRA and needs to be called out constantly. He's actively helping to decimate our Republic & cripple democracy. He's not getting called out

In Washington State you receive a paper ballot in the mail with a voter guide. Fill it out and return it in a prepaid envelope. You can register to vote when getting a driver's license or lots of public events. It's a safe, quick system. Every state should do it this way.

We @CoalitionGoodGv filed this brief today with the GA Supreme Court. We explain the lower court erred in not permitting our experts to examine the way that the voting machines were configured to display and count ballots. 1/ ...alitionforgoodgovernance.sharefile.com/d-sa50efd973d4...

We are fighting a righteous battle to vindicate YOUR voting rights. It is massively expensive to fight the State with their unlimited resources and determination not to let the public see what they have done to your vote. Please help if you can! coalitionforgoodgovernance.org/donate/

I am very grateful to @fairfightaction for supporting our group of 5 plaintiffs (@CoalitionGoodGv + 4 GA voters) to help with the huge legal expenses!! They know how expensive it is to fight the State to vindicate voters' rights. Please donate and double the funding!
